***Allowable Subject Matter***

Claims 1-10, 12-19 and 21-25 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not suggest or show the embodiments of the independent claims. While Yamashita et al. ('643) shows indentations, the indented component is noted as a dielectric which although it is an insulator, when a pressure is applied, conductivity can occur, however this doesn't meet the definition of an electrode with indentations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
